

## WE ARE EXPERTS AT INNOVATION IN LARGE MATURE COMPANIES

### WHAT WE DO

Lean Ventures specializes in working with large companies to **search for and develop new business models and revenue streams.**

We provide proven tools and apply the mindset and methodologies of **Lean Startup** and **Design Thinking** to **reduce the risk and time to introduce new products and services to the market.**

### HOW WE HELP

We are a full service provider within the field of innovation that provides **planning, design, implementation and follow-up of a wide range of innovation projects.**

We provide **coaching, training programs, workshops and interim management** to support, guide and lead innovation projects from initial idea to company wide implementation.

### OUR VALUE PROPOSITION

Lean Ventures provides proven tools and methods to develop your innovation capabilities. **We make working with innovation fun, actionable and measurable, thereby creating long-term growth for our clients.**

We have experience from investing in and mentoring hundreds of startups and implementing numerous successful innovation programs in large mature companies.
